I had the following items given to me from a cousin who is down-sizing and he came across some Ford parts that mostly came off of or he ended up not using in “rodding-out” some early model Mustangs (engine 289). He thought there might be someone in the club who might be able to get some use out of these items or we could sell them and be able to add to the club’s bank account. Most of these items are used and those marked (\*) appear unused. I wouldn’t mind just getting them out of my garage, but they should be worth something to even club members. *D. Heilman*

2-barrel intake manifold	4-barrel intake manifold	2-barrel carburetor	Chrome valve covers *
3 stock hubcaps (65)	Stock two-barrel carburetor cover	Non-stock steering wheel	Fuel Filler neck *
Stock AM radio	2 chrome-like racing mirrors	A couple of window regulators	Chrome fan blade *
Export Brace (black) *			

I wanted to get this in before I forgot. Since the club decided not to have the outing at the Duffield's' on the 10<sup>th</sup> of July; Amy and I decided to take in the **Goldendale Community Days car show**. We have attended this show a couple of times and it's a good "down-home" show. Very friendly people and since it is held during Community Days there is other things to see and do other than looking at the show cars (to some that is an added pleasure). Amy found a booth that was giving items away that we thought would work as raffle prizes, so we got a couple of these items. It was very nice weather getting to the show, might have had something to do with leaving Yakima at 7am. As I looked at the cars, I realized that there were only about a half-a-dozen (if that) came from north of Goldendale. But of those half-a-dozen, two of us came away with a trophy (Amy and I won for best 1960 and the other trophy winner went to another Yakima entry, a rat-rod).

As mentioned, the road north was not crowded with show cars. I did notice what I thought was a strange phenomenon, there were vehicles leaving the show early (prior to awards as happens in most shows), but I don't believe any of those leaving early were those living north. It was warm on the return drive, but when the rat-rod went around us we realized that they might have been much warmer than we were.

*Doug Heilman*

### ***National Night Out (in Selah)***

The following club members were present: Don and Pat Champoux brought two cars, Bruce Docken, Heinz and Doris Humann, Velda Welch, (Velda found that she had a dead battery in her Mustang so she brought her modern car. and yours truly. (five cars total). We had a good response with the people walking by and I believe we handed out a couple of new member applications to those showing an interest. We were parked between the helicopter and two large military land vehicles, so we ended up in a good path between the two. Good to see those who attended, too bad there wasn't more, but..... *D. Heilman*

**I can not help but think that others attended something (a car event) that maybe some of the other club members did not attend. Don't wait for others to write up what you did. Maybe some club members are waiting for you to write up something in order for them to place that "something" on their calendar for next year. And if you think the majority of us will be attending even a small portion of the car items listed on this newsletter, you will be waiting a long time. You might need to attend a meeting and ask who might be attending what. In other words; you might need to take the initiative and ask.**

---

I understand there might be one or two club members who do not like the place the club meetings are taking place. Now I don't know who the club members are, but I do know that in any group you can not please everyone. Some think it's too expensive, to expensive for what? We go there for a meeting and if you decide to eat then you have to regulate that issue. Maybe not eat, maybe just a drink, maybe if you come as a couple then you could order one order and share it. If you come by yourself, you could take half of your order home and get TWO meals out of it. These are just suggestions as to the place being too expensive. In other words, it's not my fault it too expensive for you, especially since no one is requiring for you to pay an entry fee. Bruce is working on trying to appease everyone so don't be afraid to speak up to the group when asked. (More power to you, Bruce)

<sup>1</sup> Life is not now nor ever will be fair. Someone else always appears to have more, live better, or achieve whatever they want without the slightest effort. Maybe it's good that life isn't fair. When you're behind a little, that's when you're focused on what's important.

I once asked a wise man; *‘When is the best time to plant a tree?’*  
Wise man answered; *“20 years ago.”*  
Seeing the look of disappointment on my face, the wise man continued, *“Do you want to know the next best time to plant a tree?”* I nodded my head in the affirmative.  
The wise man said, *“Today.”*

The above statement has to do with things we keep putting off. This does not necessarily have to do with improving relationships, although as long as both of you are still breathing there is always time to improve or reconcile a relationship; you just don’t know when it will be too late.

Ole received a summons for jury duty. The judge aske the prospective jurors if there was any reason they could not serve as a juror on the case.  
Ole raised his hand. “I don’t tink I can serve your Honor. I don’t want to be away from vork for dat long.”  
The judge responded, “Can’t they do without you for a few days?”  
Ole said, “Yes, Judge, dey can do widdout me but I just don’t vant dem to know dat.”

- “You can’t tun a society or cope with its problems if people are not held accountable for what they do.”
- “Where there is no law there is no freedom.”
- “He who angers you, controls you.”
- “Character is like a tree and reputation like a shadow. The shadow is what we think of it; the tree is the real thing.
